**Have fun at the course, have fun with your clients! Join us in therapeutic play – the NDT way!**

This interactive basic level course for OT/COTA's, PT/PTA's and SLP's will emphasize treatment strategies to promote "natural ways to play" in the child with neurological involvement. Therapists will learn introductory handling techniques to optimize postural control and visual/perceptual skills. Participants will learn how neuromotor control and influences of the sensory systems impact functional outcomes. Participants will learn basic components of Integrative Yoga Therapy (IYT) and how these strategies relate to NDT. Therapists will be challenged to facilitate creative play with the children they work with and gain knowledge in the value and foundation of "play". This course will take you through lecture, handling and movement labs, interactive discussions and problem-solving to spark individual creativity and basic understanding of NDT and IYT.

### Checklist:

- ✓ Participants should wear comfortable clothing (for labs).
- ✓ Participants should bring a soft doll at least 12 inches with soft moveable limbs (to practice handling) and one toy.
- ✓ Participants who know of a child, who would be willing to participate in a one hour demonstration, please contact CIAO.

### INSTRUCTOR

*Nancy Marin*  
OTR/L

Complete bio  
available on website

### TOPICS

- Principles of Neuro-developmental Treatment
- Basic components of "play skills"
- Integrative Yoga Therapy
- Postural facilitation to improve respiration, voice and phonation
- Posture/yoga poses to improve environmental awareness, motor planning and language
- Postural control through the use of therapeutic play and other modalities
- Sensory systems impact on "play skills" in children with neuro-motor disorders

### CEUs

#### 1.4 ( 14 hrs) OT/COTAs; PT/PTAs; SLP/SLPAs

- Check our website or call us for up-to-date CEU information for your discipline or state.
- Participants will receive CEU certificates at the course.
- Learning Outcomes will be assessed through hands-on lab work, case study examples, Q & A and Self-Assessment on the course Evaluation form.
- In compliance with professional boards, CEUs may be reduced or withheld from any participant arriving after the course begins or leaving prior to the course completion.

# Learn to Play the NDT Way

2014

## Neuro Developmental Treatment

### New Techniques

"...great combining the integration of NDT and Sensory..."

### New Strategies

"...great developmental milestones for movement..."

### New Ideas

"...great ideas for multi-age interventions and variety of tools..."
